buckeye knobs

material

All Buckeye knobs are precision-molded of ABS plastic and are noted for their toughness, rigidity, dimensional stability, glossy finish and resistance to stain, corrosion and variance of temperature.

inserts

All Buckeye knobs are manufactured with a serrated aluminum bushing precisely set to assure concentricity.

colors

Black is the standard color. Red, white, dark grey, light grey and blue are available at additional cost. Custom colors are available.

set screws

Either 6-32 or 8-32 stainless steel allen head screws used depending on the knob size. Two are supplied in each knob except the Standard #50 and Imperial #500 series. One set screw knobs are available on special order.

aluminum embellishments

Spun epoxy coated aluminum caps and disk inserts are used on all Standard Knobs. Optional aluminum rings are available in the Imperial line, inset in the same manner as standard plastic rings.

customization

Accessories, custom screen printing and custom colors are available. Buckeye will work to create the perfect knob for you.

other accessories

standard skirts

- Clear acrylic—no markings
- Solid color with arrow indicator
- Clear acrylic indicator
- Solid color—no markings
- Clear acrylic—30 degree window. Silk-screened to match knob color
- Clear acrylic—numbered 0-10 with 30 degrees spacing with 10 divisions between each number. Black numbers and lines.

aluminum caps and disks

- Spun epoxy coated aluminum caps and disk insets are used on all Cap (PS) and Disk (DSN) series knobs in the regular line.

standard skirt markings

- 30 degree window:
 - Tapered, clear acrylic, 30 degree window skirts, silk-screened to match standard knob colors: black, dark grey, light grey, white, red and blue. Window skirts also available to your specifications.
- Rotation markings
- 5 graduations/10 graduations: Tapered, clear acrylic skirts with 0-10 counter-clockwise rotation markings, 30 degree spacing, silk-screened either white or black standard. Customized silk-screening available.
- Hot stamped:
 - Tapered skirts with 0-10 counter-clockwise markings, hot-stamped in white or black. Skirts are made to match knob color unless clear acrylic is specified.
